

Want to learn how **not** to fail in Hyderabad, Lusaka, Nairobi, the Gambia, Johannesburg, Geneva, and beyond?

Interested in innovations for better healthcare at lower costs?

There's still time to add **15.S02** this Fall.

Business Models for Scale and Sustainability in Global Health will sharpen your skills in assessing business models, mapping growth strategies, understanding context, and thinking creatively.

Great cases, vivid videos, student-selected mini projects, and in-class exercises set the stage for class discussions with leaders from Riders for Health, IDEO, L V Prasad Eye Institute, FSG, and more. **What you learn could apply to other domains.**

Make the most of a unique opportunity to explore the leading edge how innovations in business—and business thinking—are addressing a complex global challenge.

Mondays and Wednesdays in E62-223 from 4-5:30 pm October 31-December 12, 2012.

Students who take this class gain preferential admission to GlobalHealth Lab.
