

Presenting

GLOBALHEALTH LAB

The new Spring 2013 version of our **global health delivery projects class**.

“Nowhere else can an MBA student have as meaningful an experience and do such life-changing work.”

Spend SIP and Spring Break in **Africa or South Asia**.

“.. the best experience of my MBA...”

Work on a **real project** in an enterprise on the front lines of healthcare delivery in a resource-limited setting.

“I never imagined that I would be able to use my MBA skills to improve peoples’ lives.”

Take on **the managerial challenge** of your MBA education, learn by **doing**, and create **impact**.

“... one of the best parts of Sloan. To be able to interact with an organization at that level, and to put everything I learned at Sloan into practice in a lab environment, was ...amazing.”

“The most valuable experience of my entire MBA at MIT Sloan...this class and my trip to Africa changed my perspective on the world and had a profound impact on my life.”

Admission by application by 6 Nov – **UPDATED TO NOVEMBER 9th** – followed by interviews in mid-November. Students informed of admission by 21 Nov; commit to class by 2 Dec. Teams form and are matched to projects in early December. Contact and start a dialog with your partnering host organization *before* the first day of class in February 2013. Meet twice a week in H1, spend SIP and Spring break in the field, and return to class for H2 sessions, wrapping up in April. GlobalHealth Lab is 12 full-semester units + 2 SIP credits. Letter grade. MIT graduate students only.

To receive updated GlobalHealth Lab information, deadline reminders, application materials, and events, subscribe to our email list via <http://mailman.mit.edu/mailman/listinfo/globalhealth.lab.students>.

“...the Sloan class of greatest value to me post-school”

The experience could be the highlight of your time at MIT Sloan.

All quotes are from past students.
